Buy in the Beautiful Gray Tract

One of the best subdivisions in San Mateo County. No adobe; the finest of soil—loam and gravel; beautiful oak trees, and situated on the Woodside road. This road is soon to be made into a beautiful boulevard. NOW is the time to buy. Only a few blocks from the new electric line. Don't let all outsiders come here and buy up the best. These lots are all 50x109 feet; no 25-feet frontage here. I want you to call at the office and I will show you what these lots are, and I would like to see our own people get in on the ground floor—not all strangers. About forty of these lots have been placed on the market for $250 each; 10 per cent cash, remaining payments to suit purchaser.

Change in Homestead Law

An important change in the regulations for acquiring homesteads on the public domain was announced Saturday by Commissioner Ballinger of the general land office. As an additional precaution against fraud, all persons making homestead entries on public lands after November 1st next will be required to be actual residents of the lands for 14 months before they will be permitted to "Commue" the entries to obtain title by a cash payment. Heretofore the period of actual residence has been eight months. The ruling will not affect entries made prior to November 1, 1907.

It is expected that trains of the Ocean Shore line will be running to Halfmoon Bay about the first of the coming year. The San Pedro tunnel is nearly completed, after which only seven miles of track remain to be laid, when the coast side will have direct communication with San Francisco. The grading has nearly all been completed and the excavation for the power house and machine shops have already been made. The company also intends to build a 1000 foot wharf between the two wharves now standing.

Franchise at San Jose

A petition was presented to the city council of San Jose by the San Jose and Santa Clara County Railroad, asking to be allowed to operate on streets in that city, cars that are to be used on a line from San Mateo, running through the towns between the latter city and San Jose. The existing line in San Jose to be included in the system which will be used for the transportation of passengers, baggage and express matter. The motive power to be electricity.

We note that our worthy contemporary, Brother James V. Swift, has had his office cleaned up and it now looks a credit to him.

A Nest Egg

Misfortune is liable to overtake you in money matters. Then it is that a good-sized "nest egg" in the savings bank comes "powerful handy." Telephone Company Sued

The suit of Mrs. Eva R. Barron against the Sunset Telephone and Telegraph Company for $5000 damages is being tried before a jury in Judge Hyland's court, in San Jose and will be watched with interest by the people of this county who have similar grievances.

Mrs. Barron declares that employees of the telephone company cut down fifty trees of a handsome grove of eucalyptus, cypress and pine in front of the residence of her farm near Mayfield. She also claims that the men wantonly mutilated fifty other trees by chopping off their branches on one side. The trees were planted by the late Edward Barron, she says, and aside from their ornamental value served to protect the house from wind and dust as well as giving it a desired seclusion.

When called to the witness stand yesterday Mrs. Barron re-stated the above alleged facts.

J. J. Morris, a real estate man, of Palo Ato, stated that the grove was of great beauty before the fifty trees were destroyed and that the property deteriorated at least $2500 in value because of their destruction. He said that there are 350 acres in the tract and that Mrs. Barron once refused an offer from him of $165,000 for the land.

Robert Tulloch testified that the trees were chopped down by himself and several other employees of the Sunset Company, but he claimed that they were given permission to do by the foreman of the ranch during Mrs. Barron's absence.

James Hutchinson, a gardener, stated that there are about two thousand trees on the farm. some of them one hundred feet in height.

Matter to be Considered

VALLEJO, Oct. 29.—Navy officers are interested in the proposed plans of the war department for the defense of Halfmoon bay. That harbor would be a point of attack by a foe seeking to enter San Franisco, and for this reason it is likely that the harbor willb e surveyed for mines and that big guns will be placed there.

The government soon will modernize all coast defenses and the fortifications about San Francisco will receive special attention.

NO UNEASINESS FELT HERE

San Mateo County Banks Are in a Prosperous Condition

The financial stringency that began in Wall street a few days ago is being felt in the remotest parts of the United States, and the financiers are trimming sail and putting their institutions in order so as to prevent undue excitement and alarm. Bankers are not lending money nowadays and all projects for opening up new enterprises are waiting for the clouds to roll by.

San Francisco banks have sent letters to their correspondents in the interior towns that they will pay no checks on presentation, but that all checks must pass through the clearing house. Such notices have been received by the Redwood City banks, as well as in other places. Drafts are written, but with that proviso on their face.

This measure was decided upon as a precaution to make impossible any scare and not because any feeling of insecurity was shown. The San Francisco banks have taken this method of making people go slow until the situation becomes normal again in New York, so that they can get their balances there in case they need them.

The San Mateo county banks are all in excellent condition and are all acting in harmony with one another and heeding the advices they received from their San Francisco and New York correspondents. There need be no alarm, for all the banks are solvent and have plenty of money. Never was the county so prosperous. When the little financial scare is over there will be better times than ever before. All that is needed is confidence.

What the Kidneys Do

Their Unceasing Work Keeps Us Healthy and Strong

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

W. J. McHarvey, living at 35 Claremont st. Redwood City, Cal., says: "I have known and have been an appreciator of Doan's Kidney Pills for a long time, and am in a position to say that they act up to every claim made for them. I am perfectly willing to have my name used as an endorser of Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's, and take no other.

Town Council

At one time during the meeting of the city council Monday night, it looked as if all the labor and expense devoted to the preparation of plans and specifications for street improvement would be a case of "love's labor lost". After the exhaustive and exhausting document had been read by Trustee Walker and City Attorney Kincaid on the "ride and hitch" plan, Mr. Hynding declared that he was not satisfied with the amount of rock which was specified for street covering and desired that the whole matter be laid over until the next meeting so that he could satisfy himself as to the correctness of the specification in this respect.

Tired with reading and irritated at realizing that the whole matter would have to be gone over again if any changes were made in the specifications, both Walker and Kincaid remonstrated with Mr. Hynding and Walker explained that during the latter's absence in the east, the remaining members of the board had used every endeavor to secure the fullest information on the proper material for covering, manner of distribution and cost, and had satisfied themselves that the plans and specifications had been drawn in such a manner that no interested property owner would suffer any hardship.

Mr. Hess informed the board that in his opinion as a street builder, the covering of rock diminishing to one inch at the gutters would not be sufficient to hold up even a vegetable wagon, and that when once cut through it would be only a question of a short time before the covering would sink and the pavement worthless. Further than this certain rock mentioned in the specifications can not be secured in sufficient quantity for the work.

Mr. Walker then stated that before any estimate had been drawn by the engineer, inquiries had been made, dealers in rock had been interviewed and an investigation made of all the points at issue, and it had finally been decided that the most feasible and reasonable plan had been adopted.

Several citizens stated as the work could not be done before next spring there was no hurry and the matter could be safely laid over until next meeting.

Trustee Foley said that the board had been a long time preparing the plans and the matter should be closed at the present time. Assurance had been received that all the rock required could be secured and on account of the necessary legal steps still required, he asked that action be taken at once.

Upon motion of Walker and seconded by Foley the resolution was adopted and plans and specifications filed. The date of appearance of property owners to show cause why the work should not be done was set for December 23 at 7:30 p. m. Hynding voted against the resolution. The cost of the contemplated work will be in the neighborhood of $30,000.

Mrs. L. Hexner presented a complaint regarding the sidewalk and bridge along the railroad, south from the station known as "lover's lane". Mrs. Hexner tripped over a loose board and fell injuring herself severly and necessitating her confinement to the house for a couple of weeks.

The letter was turned over to the city attorney and he was directed to notify the Southern Pacific to repair the walk, and in the mean time it was closed to travel.

An order was made directing the purchase of 450 feet of wooden pipe to be laid on Chestnut street, from Stambaugh street to the water works.

It was also ordered that the cut-off between the fire tank and the mains be placed upon the ground to enable the connections to be made quickly in case of fire.

The property owners on Roosevelt avenue were notified that curbings are to be put in before the macadam is placed upon the street.

There still being some sidewalks to be laid on Main street the owners were notified that unless the work is commenced before twenty days the town would have it done and charged against the property.

On motion of Walker it was ordered that hereafter no curbs other than cement would be allowed throughout what is knownas the old town.

The claim of Fred Staiter for $51.00 was allowed and the board adjourned to November 4th.

JURY DRAWN

The following names were drawn Monday, and the owners are to act as trial jurors: W. E. Orton, Frank F. Moulton, M. F. Haley, John Mangini, G. E. Meekins, John Kyne, Antone Guiarte, Dan Regan, L. F. Johnson, Peter Kavanaugh, J. Kenner, John Caughey, H. E. Heiner, P. P. Quinlan, J. M. Williamson, Geo W. Wight, Franklin Miner, Henry Koop, E. A. Alt, C. M. Weeden, John Stack, N. J. Brittan and Nicholas Hansen.

Completing Right of Way

The Peninsular Electric Railroad has completed the purchase of a right of way from San Mateo to Stanford University, with the exception of three pieces which will be secured by condemnation suits.

A. W. Bell, of Palo Alto, has been quietly buying for the railroad company lots in University Heights, Escondite tract and other tracts along the foothills between Stanford and Redwood City. From San Mateo south the line parallels the Southern Pacific tracks to the depot at Redwood City. From that point it turns southwesterly and runs along the foothills through University Heights and the campus around Lagunitas, emerging at the south gate to join the Los Gatos road.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend
